

Beaded Cross Necklace

This attractive beaded cross necklace is a lovely craft for kids to make as an Easter gift or even as a project for Sunday School.

Supplies:

For each necklace:

- 30 " Leather lacing (Suede Cord)
- 7 Translucent blue pony beads
- 1 White pony bead
- Glue, optional

Instructions:

1. Fold the lacing in half and hold on to the folded end.
2. Push on 2 blue beads on the folded end. Leave a small amount of lacing below the blue beads.
3. Put one blue bead on each piece of the leather lacing (from the other end).
4. Push on the remainder (3) of the blue beads onto the leather lacing on both strings.
5. Tie the two ends of the leather lacing together in a knot.
6. Push 2 of the blue beads toward the knot. (See photo)
7. Push the other blue bead that is on the both strings towards the beads that are individually strung.
8. Place a white bead sideways (open ends between the 2 blue beads) and then push the double strung blue bead down until it tightens the necklace to hold the white bead in place.
9. You may add glue if you wish to hold the white bead in place.
10. Wear your necklace or give it to a friend for Easter or any other special occasion.
