

# Pastoral Recordbase (Event/Sermon Tracking Database) Screen Shots

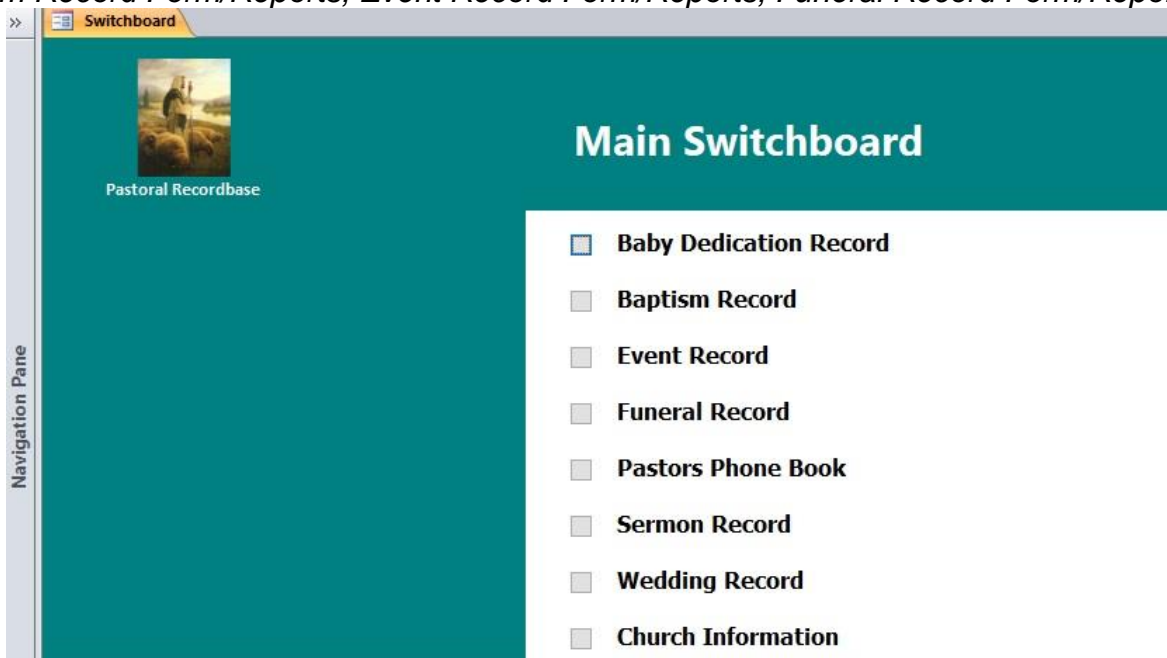

Pastoral Recordbase Screen Shots are available for FreeChurchForms.com visitors to view.

I created the Pastoral Recordbase to help Pastors and/or small to medium-sized churches to have a simple way to keep track church events, baptisms, baby dedications, funerals, sermons, etc. at an affordable price, but it can also be a great asset for a large church. ☺

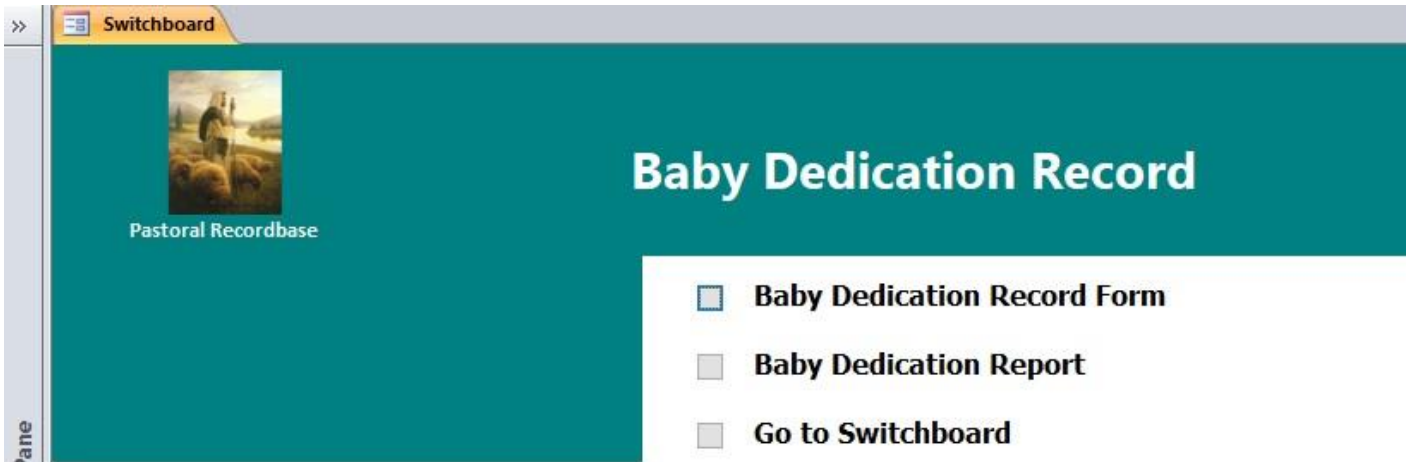

Pastoral Recordbase is powerful, but easy to use. It's a church event tracking program that tracks weddings, baptisms, baby dedications, sermons and much more for your pastor and/or church! You can preview and print many reports and includes a phone book for your Pastor and/or church also. This software comes with an easy and illustrated concise user guide with step-by-step instructions.

## Pastoral Recordbase Screen Shots:
